- The Consent Decree lays out the timing (and scope) of our actions
- The Monitoring and Modeling TAD (Technical Assistance Document) provide guidance
- We designated three areas as NA in Round 2, we have been petitioned/challenged, and EPA proposed an “error correction” to address the areas (see FRN). We received adverse comments and have not taken a final action
- We recently briefed EPA management on SO2 Designations issues, and the supporting briefing sheet provides a good background
